

MAWA GODWILL

FULL STACK DEVELOPER

PROFILE

I am a passionate self-taught full stack developer with 3+ years of hands-on experience in developing scalable websites, web and mobile applications. Proficient in developing databases, creating user interfaces, writing and testing codes, troubleshooting simple/complex issues, and implementing new features based on user feedback.

EXPERIENCE

CDS Uganda - Static Organization Website

A fully functional website for a non-government organization. The organization can efficiently receive donations and showcase their works.

Tech stack - **HTML, CSS, JavaScript**

Demo link - www.cdsuganda.org

Beat1224 - React eCommerce Website

A multi-page eCommerce web application (frontend). It features most of the functionalities that a modern eCommerce application website has.

Tech stack - **React, SCSS**

Demo link - beat1224.netlify.app

Admin1224 - Admin Dashboard App

A full stack (backend and frontend) React admin dashboard application for managing sales, customers and affiliates with an awesome data visualization for easy data analysis.

Tech stack - **MERN Stack**

Demo link - admin1224.onrender.com

Weather1224 - Live Weather App

A React live weather application that allows a user to search for current weather updates by simply typing the city or district name.

Tech stack - **React, MUI, OpenWeather API**

Demo link - weather1224.netlify.app
